## Stone SIDEBOARD

'It says that Porto is grey, but when it shines there's no doubts: it's a true gold reflected in stone.'

Granite is an integral part of the city of Porto; it is upon it that the city is built. To observe Porto is to rediscover the images of a hidden dream we hold within us. Bat eye ® presents its latest creation: 'Stone', a piece that reflects the beauty of the stone that lights up the city. 'Stone', an unique sideboard handmade crafted, coated with golden leaf and a blue satin interior depicting the radiant involvement of whole Porto absorbing the river.
